The Dataset can be used for any purpose, under the control of the Recipient Scientist, and related to medical imaging. However, the Dataset cannot be used as part of direct patient care. The Recipient Scientist undertakes to retain control over the Dataset at all times, and not to give any third party access to the Dataset without the Facilitator’s prior written approval. In addition to that, the Recipient Scientist must not re-identify or attempt to contact participants. The data must not be re-distributed to anyone, even within the own group of the Recipient Scientist, and especially not online or in any other format.

§2. Warranties etc.

The Dataset is provided “as is”. The Dataset is provided as a service to the research community. THE DATASET ARE BEING SUPPLIED TO RECIPIENT SCIENTIST WITH NO WARRANTIES EITHER EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS, OR THAT THE DATASET CAN BE USED WITHOUT RISK. The Facilitator makes no representations that the use of the Dataset will not infringe any patent or proprietary rights of third parties.

§4. Access revocation

The Provider and the Facilitator have the right to revoke the access to the Dataset if circumstances change such that the access no longer has a legal basis. The revocation is to be sent in writing to the Recipient Scientist, who then is obliged to delete all copies of the Dataset under the Recipient Scientist's control.
